EXAMPLE OF DUTIES

Essential functions are not intended to be an exhaustive list of responsibilities, duties, and skills. They are intended to be accurate summaries of what the job classification involves and what is required to perform such job. Performs related duties as required or assigned.

FIREFIGHTER II: Receives classroom and field training in wide range of fire prevention and suppression techniques, principles, and procedures; receives specialized training in salvage and rescue operations, emergency medical aid, emergency preparedness, hazardous materials, disaster, drowning, and other related emergency situations.

Responds to emergency signals; performs as member of firefighting team; responds to emergency calls by riding fire apparatus to scene of fire; lays and connects water hose, hooks up pump, holds nozzle and directs water stream; raises and climbs ladders; utilizes other specialized equipment such as fire extinguishers, SCBA's, encapsulated HazMat suits, power saws and hydraulic rescue tool; rescues occupants from fire danger, renders emergency medical aid, removes bodies and performs salvage operations.

Assists in compiling a variety of reports related to fire incidents and pre-fire plan activities.

Performs daily, weekly, monthly and post incident apparatus and equipment checks to ensure readiness of equipment and apparatus to respond to emergencies.

Performs general maintenance and repair necessary to maintain department buildings, equipment; and apparatus, sweeps and cleans station rooms, makes beds, washes walls, floors, and windows.

Prepares and submits a variety of reports pertaining to fire and medical incidents. Performs general maintenance on fire department buildings, equipment, and grounds.

Participates in a wide range of fire prevention and suppression techniques, principals, and procedures, receives training in salvage and rescue operations, Emergency Medical Services, civil defense, and disaster operations.

Responds to fire alarms, performs as a member of the firefighting team, responds to, and performs as a member of the Emergency Medical Team. Performs fire ground skills such as rescue, water supply, and fire attack and ladder operations. Utilizes other specialized equipment. Renders emergency medical aid and performs salvage operations.

Follows Fire Department protocol in conducting fire prevention inspections on various types of facilities. Assists in public education activities.

Assists in tours and instructions to civic groups requesting tours and first aid demos, attends public gatherings to insure observance of life and fire safety requirements.

Participates in the approved department physical fitness program to maintain an adequate level of fitness and health. Must be able to lift, carry, and/or operate any piece of equipment on a department apparatus. Makes recommendations concerning the selection of technical equipment and supplies.

Performs all functions in accordance with the NDFD policies and procedures.

AEMT: Safely responds to medical emergencies. Evaluates patient's condition and/or injuries; evaluates accident scenes and/or medical emergencies and administers aid as per protocol; monitors patient's vital signs and provides basic life support until transported to the hospital. Operates resuscitation and suction devices during cardiopulmonary resuscitation; applies vacuum splints, cervical collars, backboards, and various other medical devices used to immobilize patients during transport and extrication.

Performs daily inventory of ambulances and ensures their readiness to respond to emergencies. Checks all equipment on board the ambulance and ensures it is operating properly.

Applies bandages and dressing on soft tissue injuries as needed to stop bleeding; applies pneumatic anti-shock pants on patients as per protocol to maintain profusion of patient's vital signs; lifts and carries patients from scene to ambulance according to established procedures. Transports patients via ambulance to hospitals.

Cleans ambulances and equipment in a safe manner to prevent exposure to medical waste and other hazards associated with medical operations. Disposes of contaminated equipment and material according to governing regulations and procedures.

Attends public gatherings to ensure observance of fire safety requirements, standards, and regulations; conducts tours for interested groups.

Other Firefighter duties as assigned

Performs other related duties as assigned.

MINIMUM QUALIFICATIONS

1. Education and Experience
